Fullstack Web Developer

7th-semester Information Systems student with hands-on experience in fullstack web development, specializing in building responsive web applications and RESTful APIs. Proficient in TypeScript, React, Next.js, Golang, and Node.js, with experience developing frontend interfaces, backend services, and database-driven applications.

WORK EXPERIENCE

Barberstuff **August 2026 - Present**
Backend Developer • Freelancer **Bekasi, West Java, Indonesia**

- Developed RESTful APIs using Go, Gin, and GORM to support barber operations across multiple applications.
- Implemented JWT-based authentication and role-based authorization for secure access across different user roles.
- Developed booking, service, cashier, and bookkeeping features covering scheduling, booking items, payments, cash sessions, and financial transactions.
- Developed employee management features for attendance, payroll, and production cost management across business partners.
- Designed database models, relationships, validation, and business logic using GORM and PostgreSQL.

Profile Image Studio **July 2026 - Present**
Frontend Developer • Internship **Malang, East Java, Indonesia**

- Implemented responsive and interactive web interfaces from UI/UX designs using Next.js, React, and Tailwind CSS.
- Developed reusable UI components and integrated REST APIs to support dynamic web functionality.
- Optimized responsive layouts and user interfaces for consistent experiences across different screen sizes.

Lembaga Pengembangan Komputer **September 2024 - Present**
Supervisor • Part-time **Depok, West Java, Indonesia**

- Supervised practitioners' discipline and attendance during practicum sessions and provided feedback to support performance evaluation.
- Guided practitioners in understanding programming concepts and developing relevant technical skills.
- Provided technical guidance and direction during practical sessions to support effective learning and problem-solving.

Kementerian Kelautan dan Perikanan **August 2025 - October 2025**
Fullstack Developer • Internship **Gambir, Jakarta, Indonesia**

- Developed responsive web applications using Next.js, TypeScript, and Tailwind CSS based on UI/UX designs and project requirements.
- Built and integrated REST APIs with backend services to support dynamic web application functionality.
- Collaborated with team members to develop scalable and maintainable solutions based on project requirements.
- Conducted usability testing to identify UI/UX issues and improve user experience and accessibility.

EDUCATION

Bachelor's in Information System
Gunadarma University • Depok, West Java, Indonesia •
GPA: 3.93/4.00 September 2023 - Expected August 2027

Vocational High School in Automated Office Administration Systems
SMKN 47 JAKARTA • GPA: 84.45/100 South Jakarta, DKI Jakarta, Indonesia • July 2020 - May 2023

CERTIFICATIONS

PROJECTS

SIPP Adipura September 2026 - Present
Profile Image Studio
Developed a dashboard module for SIPP Adipura to visualize monitoring-point coordinates across different areas using Leaflet Map, and implemented Pie Charts and Progress Charts to present monitoring data and progress indicators.

SIPP Berseri August 2026 - September 2026
Profile Image Studio
Developed a RW data management module for villages across Batu City, implementing CRUD operations, API integration, and reusable UI components using Next.js, React, TanStack React Query, and Tailwind CSS.

Festival Mbois July 2026 - August 2026
Profile Image Studio
Developed a responsive landing page for Festival Mbois in Malang using Next.js and Tailwind CSS, featuring event information and an online volunteer registration form.

Indra Farma April 2026 - May 2026
Gunadarma University
Developed a pharmacy inventory management system to manage medicine stock, sales transactions, and product availability using Next.js, TypeScript, Go, and PostgreSQL.

Lea Juice App October 2025 - January 2026
Gunadarma University
Developed a full-stack e-commerce platform for fresh juice and salad products, implementing product management, order processing, authentication, and an admin dashboard using Next.js, TypeScript, Prisma, and PostgreSQL.

Sistem Informasi KKP August 2025 - September 2025
Kementerian Kelautan dan Perikanan
A government data visualization system that allows staff to upload Excel files and automatically render them as interactive charts, replacing manual data processing and supporting data-driven decision making at Kementerian Kelautan dan Perikanan RI.

SKILLS

Frontend
- HTML
- CSS
- TailwindCSS
- Javascript
- Typescript
- React.JS
- Next.Js

Backend
- Golang
- Gin
- Node.Js
- Express

Databases
- MySQL
- PostgreSQL
- MongoDB

Tools
- Git
- Github
- Figma
- Docker

Backend Services
- Firebase
- Supabase
- CI/CD
